Introduction	1
PART I Getting Started with GoLive	5
Hour 1 Understanding the GoLive Interface	7
Exploring the GoLive Interface	8
The GoLive Workspace	8
The Document Window	8
The Objects Palette	9
The Toolbar	10
The Inspector	11
The Site Window	11
Customizing Palettes	12
Tear Off Tabs	13
Docking Palettes	13
Menus	14
Keyboard Shortcuts	14
Using Contextual Menus	15
Preferences, Modules, and Browsers	16
Setting the General Preferences	16
Turning Modules On and Off	17
Other Items You Will Need	18
Plug-ins	18
Summary	19
Q&A	19
Hour 2 Creating a Site File	21
Understanding How GoLive Manages Web Sites	22
Creating a Web Site from Scratch	23
Creating a Web Site from an Existing Folder	23
Creating a Web Site from a Site Template	25
Creating a Web Site from an FTP Server	26
Examining Basic Site Window Functionality	28
Using the Site Window	28
Adding Resources to Your Web Site	30
Adding Files from the Site Menu	30
Drag and Drop into the Site Window	32
Copy Files and Rescan Root Folder	33

Managing Your Web Site in the Site Window	33
Move Files and Folders in the Site Window	34
Rearrange Files and Folders with GoLive's Site Window	34
Add New Files and Folders	34
Delete Files and Folders	35
Rename Files and Folders	36
Summary	36
Q&A	37
Hour 3 Creating a Web Page	39
Making a New Page	40
The Document Window and Its Tabs	42
Viewing the Source Code (HTML)	43
Viewing a Page in Layout and Source Simultaneously	44
Using the HEAD Pane	45
Giving Your Page a Title	45
Using GoLive HEAD Tags	47
Setting the Width of Your Page	48
Setting the link, alink, and vlink Colors	50
Setting the Page Background Color	51
Previewing Your Page	52
Previewing in GoLive	52
Previewing in Your Browser	52
Summary	54
Q&A	55
PART 2 Designing a Home Page	57
Hour 4 Formatting and Stylizing Text	59
Importing Text into Your Web Page	60
Copying and Pasting Text	60
Opening a Page Exported from a Word Processor	62
Dragging from a Text Document or Another HTML Page	62
Typing Directly onto Your Page	63
Viewing Your Text with the View Controller	65
Formatting and Stylizing Text	65
Aligning Text	66
Creating Headers	66
Applying Bold, Italic, or Teletype Styles to Text	67
Setting the Font Size	68
Changing Text Color	69
Creating Lists from Text	70

Adding Web Page Fonts	72
Using Font Sets	72
Creating and Editing Font Sets	73
Creating Hyperlinks from Text	74
Creating an Email Link	74
Setting the Auto Add mailto Preference	74
Linking to Another Page Within Your Site	75
Linking to a Page Not in Your Site	77
Using Anchors to Link to a Particular Spot on Your Page	77
Spell Checking Your Document	79
Summary	80
Q&A	81
Hour 5 Using Graphics on a Web Page	83
Selecting the Proper Image Type	84
Adding Images to the Site File	85
Adding an Image to a Web Page	88
Resizing an Image	92
Adding Space Around an Image	93
Aligning Images and Text	94
Adding a Background Image to a Web Page	95
Drag and Drop Your Background Image	97
Linking Images to Other Pages	97
Using Image Mapping	98
Summary	100
Q&A	100
Hour 6 Designing Pages with Tables	103
Adding a Table to Your Web Page	104
Adjusting the Basic Table Attributes	104
Setting the Dimensions of Your Table	105
Setting the Appearance of Your Table	106
Working with Cells	108
Selecting Cells	108
Selecting Rows and Columns	110
Adding Rows and Columns	110
Deleting Rows and Columns	111
Spanning Cells	112
Coloring Cells, Rows, and Columns	112
Formatting Text in Cells, Rows, and Columns	113
Setting the Width and Height of Individual Cells	114
Using Table Styles	115

Using Tables to Structure Your Web Page	116
Example 1: Using Nesting Tables to Create a Design	116
Example 2: Using a Layout Grid Inside a Table	117
Example 3: Using a One-Cell Table Inside Another Table	118
Example 4: Using Multiple Tables	119
Importing Text into Tables	121
Sorting Data in Tables	122
Summary	123
Q&A	123
Hour 7 Designing Pages with the Layout Grid	127
Adding a Layout Grid to Your Page	128
Adjusting the Basic Grid Attributes	129
Adjusting the Gridlines	131
Aligning the Grid on the Page	132
Applying a Background Color to the Grid	133
Adding Objects to the Grid	135
Aligning Objects on the Layout Grid	138
Using the Align Palette	139
Optimizing a Layout Grid	140
Summary	141
Q&A	141
Hour 8 Designing Pages with Floating Boxes	145
Considering Web Browser Compatibility with Floating Boxes	146
Adding and Adjusting Floating Boxes	147
Adding Floating Boxes to Your Web Page	147
Adding Text and Graphics to a Floating Box	152
Managing Floating Boxes with the Floating Boxes Palette	153
Locking and Unlocking Floating Boxes	153
Hiding and Showing Floating Boxes	154
Converting Floating Boxes to a Layout Grid	154
Summary	155
Q&A	156
PART III Building a Web	159
Hour 9 Using GoLive's Site Management Tools	161
Managing Files in GoLive's Site Window	162
Managing Site Files	162
File Organization	165
Adding Files Through Windows Explorer or the Macintosh Finder	165
Using Email Addresses in Your Web Site	166
Linking an Image or Text to an Email Address	166
Managing Email Addresses	166

Adding Addresses Directly to the External Tab	167
Managing and Checking External Links in Your Web Site	168
Eliminating Unreferenced Email Addresses and External URLs	169
Checking External Links	170
Using the Site Tab	170
Changing References	171
Organize and Keep Track of Used Colors in Your Site	172
Finding Used Colors in a Site	172
Adding Colors to a Site	173
Applying Site Colors to Your GoLive Page	174
Keeping Track of Used Font Sets in Your Site	174
Summary	176
Q&A	177
Quiz	177
Quiz Answers	178
Exercises	178
Hour 10 Using Components, Stationeries, Custom Snippets, and Custom Tabs	179
Comparing Stationeries, Components, and Custom Snippets	180
Before We Start: Site Extras	181
Creating and Applying Stationeries as Template Files	183
Creating and Applying Components as Dynamic Page Elements	185
Storing and Reusing Custom Snippet Codes	189
Using the Custom Tab	191
Summary	192
Q&A	192
Hour 11 Designing Pages with Frames	195
Creating Frame Sets	196
Editing Basic Frame Set Attributes	197
Assign Pages to the Frames in Your Frame Set	199
Targeting Pages from Within Your Site	202
Targeting Links to Pages Outside Your Site	205
Targeting Two Frames with One Link	207
Summary	208
Q&A	208
PART IV Adding Interactivity to a Web page	211
Hour 12 Designing Forms for User Feedback	213
Understanding How Forms Work	214
Starting with a Form Container	215
Creating a Table for a Form	215

Adding Text Entry Fields to a Form	217
Adding Radio Buttons and Check Boxes to Your Form	219
Adding Radio Buttons	219
Adding Check Boxes	221
Adding Pop-Ups and List Boxes to Your Form	223
Adding a Large Text Area for Comments	224
Adding a Submit and Reset Button to a Form	225
Making Your Form Email You the Results	227
Summary	228
Q&A	229
Hour 13 Using JavaScript Actions	231
Using Objects from the Smart Tab	232
Setting Up and Using the Modified Date Object	232
Setting Up an Image Rollover	233
Adding a Link to a Rollover	235
Adding a URL Pop-Up	235
Using Actions	239
Adding an Open Window Action	239
Adding a Set Image URL Action	243
Locating and Installing GoLive Actions	245
Summary	246
Q&A	247
Hour 14 Creating DHTML Animations	249
What Is DHTML?	250
Recording a Simple DHTML Animation	250
Using the Timeline Editor to Edit Your Animation	254
Using Actions in Your Timeline	256
Animating Multiple Floating Boxes	257
Summary	264
Q&A	264
Hour 15 Using Plug-ins and Multimedia Content	267
Deciding Whether Plug-in Technology Is Appropriate for Your Web Site	268
How to Set Up GoLive to Preview Your Plug-in Content	269
Adding a QuickTime Movie to Your Web Page	269
Adding Flash Content to Your Web Page	272
Adding RealVideo Content to Your Web Page	274
Adding SVG Content to Your Web Page	276
Adding Generic Plug-in Content to Your Web Page	277
Summary	278
Q&A	279

PART V Using Advanced Features	281
Hour 16 Using the QuickTime Editor	283
Making Sure That Your Computer Is Ready for QuickTime	284
Understanding the QuickTime Editor Interface	285
The TimeLine Defined	286
About Tracks	287
Adding Additional Sound and Video Tracks to Your QuickTime Movie	289
Adding Sound to a Movie	290
Making Adjustments to the Tracks on the TimeLine	291
Naming a Track	291
Adjusting the Start Time	292
Adjusting the Duration Time	292
Working with Sample Tracks	293
Saving and Exporting Movie Files for the Web	296
Flattening a Movie	296
Exporting a Movie for the Web	296
Settings	297
Filter	299
Size	300
Sound Settings	301
Compressing Music for the Web	301
Compressing Sound Used for Narration	302
Summary	303
Q&A	303
Hour 17 Using Photoshop/ImageReady, Illustrator, and LiveMotion Smart Objects	307
Using the Photoshop/ImageReady Smart Objects	308
Using Illustrator Smart Objects	312
Using the LiveMotion Smart Objects	315
Setting the Export Format in LiveMotion	316
Opening Files in Their Native Application	317
Summary	317
Q&A	317
Hour 18 Formatting Text with Cascading Style Sheets	321
Creating Style Sheets in GoLive	322
Types of Style Sheets Selectors	322
Tag Selectors	322
Using Classes for Style Sheets	325
Creating an ID Tag	327
Defining Fonts with Style Sheets	328

Defining Text Attributes with Style Sheets	329
Adjusting Margins in Style Sheets	332
Applying Style Sheets to Existing Pages	333
Working with External Style Sheets in Sites	334
Avoiding Web Browser Incompatibilities with Style Sheets	335
Using Netscape CSS Fix	338
External Style Sheet Priority	339
Summary	341
Q&A	341
Hour 19 Controlling How GoLive Writes HTML	343
Understanding the Web Settings Window	344
The Global Tab	344
The HTML Tab	344
The CSS Tab	345
Setting General HTML Preferences	346
Using the Global Tab	346
Using the Break Text Check Box (Windows Only)	347
Indent With	347
Line Break Character	347
Tag Case	347
Attribute Case	348
Quote Attribute Values	348
Color Name Translation	349
Alignment Local in Paragraphs	349
Changing Default Attributes of Elements with the HTML Tab	349
Changing the Default ImageSettings	351
Adjusting How GoLive Views CSS Code with the CSS Tab	353
Summary	356
Q&A	356
Hour 20 Creating a Site Design	359
Creating a Site Design	359
The Design Tabs	361
Anchoring a Site	361
Creating Sections, Pages, and Groups	362
Starting the Design	363
Grouping Pages	366
Annotating the Design	367
The Annotation View	369
Adding Content to the Pages	370
Merging the Site Design with Your Existing Site	371
The Staging Tools	371
Checking the Site Design	372

Fixing Errors in a Site Design	372
Submitting a Design to a Site	373
Recalling a Design from a Site	373
Summary	373
Q&A	373
PART VI Publishing and Maintaining Your Web Sites	375
Hour 21 Working with Source Code in GoLive	377
Editing HTML in the Source Editor	378
Using the HTML Outline Editor to Change Source Code	381
Using the Source Code Palette	385
Finding Code with the Element Finder	387
The Element Finder Defined	387
Using Source Preferences to Change the Appearance of Source Code	391
The Basic Source Preferences	392
Changing the Browser Compatibility Selections	392
Font Preferences for the HTML Source Editor	393
Colors-Setting the Preference for Syntax Highlighting	394
Changing the Color Preferences	394
Printing the Source Code	395
Summary	395
Q&A	396
Hour 22 Cleaning Up Your Web Site	399
Finding Errors and Link Warnings	400
Filtering Bugs	401
Fixing Errors	402
Viewing Missing Files	403
Reviewing Orphaned Files	404
Editing Your Site with the In & Out Links Palette	405
Using the Change References Feature	407
Using Find and Replace	409
Using Find Within a File	409
Using Additional Find Options	410
Using Find and Replace Within a File	410
Using Find Within an Entire Site	411
Using Find and Replace Within an Entire Site	412
Cleaning Up Your Site with the Clean Up Site Function	413
Adding Used Items	414
Removing Unused Items	414
Default Settings	414
Summary	415
Q&A	415

Hour 23	Uploading Your Web Site to Your Web Server with FTP	419
	Acquiring a Domain Name	420
	Finding a Web Hosting Provider	420
	Understanding How FTP Works	421
	Entering Your FTP Preferences	422
	Setting Your FTP Upload Preferences	424
	Uploading Your Web Site to Your Web Server	426
	Maintaining Your Web Site with GoLive's FTP Features	427
	Using the Incremental Upload Command	428
	Using the Upload Modified Items Command	428
	Using the Upload Selection Command	428
	Using the Upload All Command	428
	Uploading New Files to Your Web Server	428
	Using GoLive's Standalone FTP Browser	430
	Troubleshooting Network Problems with the Network Status Window	432
	Summary	433
	Q&A	433
Hour 24	Making Your Web Site Search Engine Ready	437
	Understanding What Common Search Engines Are Looking For	438
	Behind the Scenes	438
	Create a Sensible Title	438
	Adding Appropriate Keyword Meta Tags to Your Pages	439
	Selecting Keywords	439
	Creating a Clear Description for Your Page	441
	Avoiding Common Errors	443
	Promoting Your Web Site to the Search Engines	443
	Making Your Web Site Known to Directories	444
	Summary	444
	Q&A	444
	Index	447
